SYNERGY FINANCIAL RESOURCES
YOUR CAPITAL EXPERTS

Buy it now. Pay later.

ENJOY BIGGER SAVINGS.

Combine tax benefits with no payments for 90 days to maximize savings in 2026!

No Payment for 90 Days

By financing your equipment needs with a 90-day deferred payment option, you can begin expanding right away and defer payments until later - giving you additional time to generate new revenue. Coupling your deferred payments with year-end tax advantages can result in significant savings!

*

Year-End Tax Benefits

Section 179 of the IRS Code was established to assist small businesses by enabling them to claim a depreciation deduction for specific assets (capital expenditures) within a single year, instead of spreading it over an extended period. This provides a distinct advantage, as businesses can benefit from taking the full deduction for an item's cost right away, rather than having to distribute the deduction throughout the asset's useful life.

Calculate Your Tax Savings

Cost of Equipment & 1st Year Deduction	$ 75,000.00
Potential Tax Savings Assuming 21% Tax Bracket	$ 15,750.00
Net Equipment Investment	$ 59,250.00

Program Details

- The deduction limit for Section 179 is $2,560,000 - if you finance or lease a piece of equipment, you can deduct the full purchase price up to $2,560,000.
- The 2026 Section 179 deduction threshold for total amount equipment that can be purchased is $4,090,000.
- The bonus depreciation rate is 100%.
- Companies can take both Section 179 and Bonus Depreciation. Anything over the Section 179 limit can be taken as bonus depreciation.
